Arun Sahadeo

Web and Software Developer
Harrow, United Kingdom

Summary

Multi disciplinary web and software engineer focusing on Laravel and WordPress, although experienced in many other technologies including Python and Ruby.

Skilled in Linux distributions such as Ubuntu and CentOS, database technologies including MySQL and Postgres, and web server technologies such as Apache and NGINX.

In my spare time, I enjoy tinkering with new technologies and reading books on various subjects including physics, maths and chemistry.

Experience

Wirebox

Full Stack Developer

November 2015 - Present (4 years 8 months)

Responsibilities include the following:

- * Development of various websites using technologies including PHP, WordPress, Laravel and Wagtail
- * Implementation of SEO techniques, such as asset optimisation (video and still image), to generate high SEO audit scores for clients
- * Development of mobile-first HTML email templates for both internal and client purposes, designed for compatibility across various email clients.
- * Writing SQL scripts to perform common queries against client databases
- * Integration of analytics tools, including Google Analytics / Google Tag Manager, Facebook Pixel, Yahoo Gemini etc.
- * Utilisation of various testing tools, including Selenium WebDriver and PHPUnit, to ensure code reliability and quickly identify any bugs.
